

Our Company

Hallmark Kitchens Limited is one of the UK's most successful suppliers of commercial kitchens. We strive on providing the best by offering the widest range of specialist kitchen services to the corporate, public service, education, hospitals and restaurant sectors.

Our success is due to our high level of customer retention and personal recommendation. Our philosophy is simply to listen very carefully to what our customers want, ask relevant questions, use our years of experience to advise where appropriate and confirm the brief in detail. What makes us different from other operators is our unique ability to deliver a complete range of services from within our company.

“ Our staff have been very impressed with how smart the new facility is.

”
Restaurant & kitchen design, EON

Planning & Design

From feasibility studies to concept design and drawings, we can plan and design your ideal kitchen.

Equipment Supply & Installation

Hallmark has the expertise, professional understanding and buying resources for any project.

Complete Kitchen Refurbishment

With our expert design and fitting at hand, we provide full refurbishment services.

Support & Maintenance

We provide planned preventative maintenance and reactive breakdown services whenever they are needed.

○ Client: Estiatorio Milos

○ Location: St James, London

○ Main Contractor: WFC Contractors

Milos Restaurant

When international restaurateur Costas Spiliadis decided to bring his fine dining fish offer to London, he contacted Hallmark following a recommendation from Gareth Sefton of SHW Consultants. With established restaurants in Athens, Las Vegas, Miami, Montreal and New York, Costas knew exactly what he wanted but needed the professional assistance of a UK specialist to design develop and install his vision.

With bespoke marble clad counters, a wood burning oven in what represents the body of a windmill and triple-tier lobster tank, Hallmark delivered the project in conjunction with WFC Contractors.

This is one of many restaurant projects in our portfolio that features alongside education, retail, healthcare and hotel-based projects.
